Objective

- After excelling as a sign language interpreter, I have decided to change careers to maximize my proficiency in programming and technology

Experience

GUEST TEACHER ASSISTANT | UT CODING BOOTCAMP | AUGUST 2016-PRESENT

- Assist with the new cohort of students in the Coding Bootcamp at University of Texas in Austin 's Full-Stack Flex Program
- Provide in-classroom help to teachers as well as students, answering questions and fostering their learning, while also reviewing past topics and solidifying my own knowledge base of the computer skills listed below

EDUCATIONAL INTERPRETER | ROUND ROCK ISD | NOVEMBER 2013-PRESENT

- Designed and developed the McNeil Interpreter Website and continue to manage and monitor it
 - Website is used by our Deaf students, their parents and guardians, as well as our campus teachers and administrators (over 2,000 users) to request interpreter services. Before its creation, this process required hardcopies that were difficult to manage and track. I saw this issue and streamlined their process, taking it upon myself to create a website where anyone can go to request this service.
- Consolidated multiple resources and legacy systems into one user-friendly resource
- Coordinate the technology used in biweekly meetings, such as PowerPoints and video streaming, as the technology arm of our department. I take on all additional technology tasks needed by the interpreters, such as making videos, website and e-mail queries, etc.
- Facilitate communication by interpreting for 26 Deaf high school students, 9th-12th grade, in their mainstream classrooms

CHILDREN'S DEPARTMENT LEAD | BARNES & NOBLE | JUNE 2005-JANUARY 2013

- Managed the children's book department team of 3 sales representatives
- Developed merchandise displays throughout the store to amplify sales by 70% (\$53,000)
 - Directly impacted the customers to help create ease of navigating the Children's Department
 - Enhanced the merchandise display process to increase sales by region and store specific needs
- Lead and managed store events (midnight book releases, guest authors, children's story time, etc.)

Skills & Abilities

COMPUTER LANGUAGES/SKILLS

- JavaScript, jQuery, Node.js, Express, HTML5/CSS3, Bootstrap, Git, GitHub, Responsive Design, Heroku, API/JSON, RESTful API, Firebase, MySQL, MongoDB, Mongoose, Cheerio, Ajax, State Management, Film Editing Software, Adobe Suite, Python, C++, Java

COMMUNICATION

- Skilled at leading meetings and presentations
- Excellent verbal and writing skills with a strong attention to detail

LEADERSHIP & TEAM WORK

- Goes above and beyond what is required, with a positive/can-do attitude
- Reliable, hard-working, excellent at creative problem-solving

Education

THE CODING BOOTCAMP AT UT AUSTIN'S FULL-STACK FLEX PROGRAM | APRIL 2016 - OCTOBER 2016

- An intensive 24-week long boot camp dedicated to designing and building web applications
- Skills Learned: JavaScript, jQuery, Node.js, Express, HTML5/CSS3, Bootstrap, Git, GitHub, Responsive Design, API/JSON, RESTful API, Firebase, MySQL, Ajax, State Management, ORM, Heroku, Cheerio, MongoDB, Mongoose
- Projects: JavaScript Hangman, Node.js Hangman, RPG, BuzzFeed-esque Trivia Game, GIF Generator, Firebase Train Scheduler, getBusy Group Project, Liri, Bamazon, Friend Finder. Visit my GitHub account (<http://github.com/MonicaSzabo>) to view my projects.

BACHELOR OF SCIENCE | GRADUATED MAY 2009 | THE UNIVERSITY OF TEXAS AT AUSTIN

- Major: Radio-Television-Film
- Graduated with Honors (top 10% of class)
- College Scholar, Dean's Honor List
- The Honor Society of Phi Kappa Phi
